19 Out of the amount of Rs 9 lakhs sanctioned for the municipality a sum of Rs 2,50,000/- has been stated to be required for the improvement of water distribution in the city. The amount in question may perhaps be met from out of this

12 15/11

21 The point for orders is whether for laying the additional pipe line from the Combined Jewel Filters to the Low level Reservoir the Municipality has to bear the cost of the pipes to be removed for the purpose from the G.T. Tank main

M

22 Paras 22 and 23 of the notes in Mc file 262 32 put up containing the O/C Dewans-minute regarding the laying out of this line show that in calculating the cost over Rs 35,000, the pipes to be removed from the G Tank main were not included as they were our own and no new pipes had to be purchased

23 The estimate now prepared for the work is said to amount to Rs 55,480, of which ~~the approval of Govt is for Rs 20,000 only~~ represents the cost of the pipes ~~to be laid~~ and this is proposed to

NOTE—Contn Sheet

to be charged to the Municipality. The Municipality are stated to have countersigned the estimate only for Rs 29,040 saying that they are unable to bear the cost of the pipes and that Govt may give the same free of cost

24) The pipes in question are stated to be in Stock account with the Executive Engineer, Waltair Water Supply and this is the reason for including the cost in the estimate. Reference is invited to paras 2 & 3 of the Ex Engineer's letter Dt 12 & 33 to the Chief Conl in the matter

25) It is not known on what grounds the Municipality is not willing to bear the cost of the pipes — whether it is due to inability for want of resources or for any other reason. If approved, an enquiry will be made on the point

26) As regards funds the loan of Rs 9 lakhs sanctioned to the Municipality in the G.O. dt 20.4.33 includes Rs 2,50,000 for the improvements Water Distribution in the City, and so there will be no difficulty for the Municipality to meet the sum of Rs 55,480 if it is decided that the whole cost is to be met by it

27) Orders In case no enquiry as suggested is considered necessary the Fire Service charges cancelled as to whether the recovery of the cost of the pipes from the Municipality may not be waived as requested by the Municipality

Chief Secy) 11/11

28 The Municipality should be asked to bear the cost of the pipes. There is no reason for waiving the cost. If the Municipality have any objection to the cost of the pipes they should state so.

The Municipal Commissioner
Bangalore City,
Through the President, City Municipal
Council, Bangalore.

S I R,

In connection with the laying of a duplicate main at an estimated cost of Rs.55,480 from the combined Jewel Filters to the Low Level Reservoir, it has been brought to the notice of Government by the Chief Engineer that the Municipality would not be able to pay for the value of the pipes, which is estimated to cost nearly Rs.30,000 and that you desire that they may be given free of cost. Government consider that there is no reason for waiving the cost of the pipes and that the Municipality has to bear the cost In view of the inability of the Municipal Council to bear the entire cost and also of the fact that the pipes are ~~old~~ new, Government have decided to charge the cost at ~~the lowest rate~~ a great concessional rate, and have accordingly fixed the cost at Rs.25,000 I am accordingly to request you to be so good as to arrange to place the amount at the disposal of the Chief Engineer.
